

MAINTAINING WOOD FINISHES

For daily cleaning, TUOHY recommends using a reputable, ammonia-fortified, spray glass cleaner. Lightly apply the glass cleaner directly to the finish surface and wipe clean with a cotton or non-abrasive cloth. Waxes and top oils are not recommended because they tend to build up on the surface and distort the naturally clear appearance of the Technivar-II finish.

Permanent magic marker can be removed with a brief application of acetone without damage to the finish surface.

Normal maintenance involves only wiping surfaces clean with a soft cloth; a light amount of glass cleaner may be used to remove grease or other grime. Furniture polishes are not necessary and are not recommended.
